

Policy no. : CPR-0002-01

Sustainable Procurement Policy
Betagro Public Company Limited

Betagro Public Company Limited and subsidiaries are committed to conducting business for sustainable growth based on product quality & safety, social, and environmental responsibility throughout the business process. This commitment is aligned with the Company's sustainability policy and the Sustainable Development Goals (SDGs) of the United Nations. This policy applies company-wide, encompassing all stakeholders across the entire supply chain, promoting ethical business practices for sustainable development. The Chief Executive Officer and President have established a sustainable procurement policy as a guideline for aligning business operations with the Company's sustainability policy. All executives and employees are responsible for supporting and adhering to this policy in the management of procurement activities:

1. Our procurement involves the considerations elaborately based on quality, quantity, price, service and speed of response towards productive efficiency and effectiveness.
2. Our procurement underlying principles express transparency, fairness, verifiableness and equal treatment for all business partners, including effective compliance with relevant laws and regulations.
3. Betagro promotes green procurement and traceability program which play as an essential role in driving sustainability, including the compliance principles of human rights, society and labor across entire supply chain.
4. Betagro emphasizes and encourages the local procurement and sourcing to acquire materials and products from manufacturer within country.
5. According to new supplier selection in direct raw materials, Betagro selectively focuses on suppliers who can comply with sustainability criteria.
6. Betagro publicly communicates the Betagro Supplier Sustainability Code of Conduct to suppliers, including having the supplier's verification process in order to ensure code of conduct complied.

7. Betagro evaluates and selects suppliers who consistently adhere to ethical principles for Betagro's Supplier Sustainability Code of Conduct.
8. Betagro strongly encourages the knowledge and competency development program for employees and business partners, maintaining good relationships to promote and strengthen sustainable growth together.

The Sustainable Procurement policy will be reviewed at least once a year, considering significant changes that impact the organization and stakeholders throughout the supply chain.

Announced on January 5, 2024

(Mr. Vasit Taepaisitphongse)

Chief Executive Officer and President
